

Hands-On...

Sukkah

by Lisa Baydush
© 2010

You'll Need:

1. **Wooden crate or box with slats on the top**
2. **Fall leaf decoration**
3. **Clip-art of fruit and vegetables**
4. **Ribbon, cut in 6" strips**
5. **Hot-Glue gun**
6. **Velcro**

Affix the fall leaf decoration to the top and sides of the box. Voila, instant sukkah!

Print clip-art (see next page); cut it out and laminate.

Affix a 6" length of ribbon to the back of the clip-art with a hot-glue gun. Staple a piece of Velcro to the end of the ribbon (soft side)

Affix Velcro (gripper side) along the top front edge of the sukkah. Put another strip of Velcro on the inside front edge of the next slat as well.

After Sukkot, remove decorations and use the crate as an Aron Kodesh for Simchat Torah!

Our Sukkah

by Carol Boyd Leon, adapted

Now we decorate our lovely sukkah,
Now we decorate it for Sukkot!

Help me decorate our lovely sukkah,
Help me decorate it for Sukkot!

[Lisa] hangs an orange,
hangs an orange,
[Lisa] hangs an orange
in our sukkah for Sukkot!
(sing this for every student)

Now we have a very lovely sukkah!
Now we have a lovely sukkah for
Sukkot! (repeat)

Pass a basket with the laminated fruit/vegetables around a circle of students and let them choose an item to hang on the sukkah. As you sing the song, each child hangs their item.
